

LEADERSHIP STARTS HERE

ALIA Summer Institute June 18-23, 2012 Halifax, Nova Scotia, Canada

“ALIA is a dynamic, living laboratory of personal and collective learning.”—Peter Senge, author, The Fifth Discipline and The Necessary Revolution

A May 2010 leadership column in the Washington Post placed the ALIA Summer Institute at the top of its “*must-consider events*,” describing it as a “*truly unique leadership development experience*.”

When we’re caught in the pressures and complexity of rapid change, the impulse is to move faster and work harder. In reality we need to step back, think more deeply and broadly, and learn to respond in new ways.

The ALIA Summer Institute is a resource-rich laboratory for generating fresh perspectives and new solutions. Here you will find yourself at eye level with thought leaders, artists, meditation teachers, and inspired leaders, managers, and change-makers from around the world.

You will leave ready to

- step into leadership in a way that is authentic for you
- bring out the leadership in others
- engage uncertainty and change as your allies
- bring together diverse stakeholders to create collaborative solutions
- apply new lenses and strategies to your current project
